**Who is MS Do?** She is the single mom of a teenager and an atypical stay at home mom. During fifteen years of working as an elementary teacher, I taught kindergarten through eighth grades, specializing in the areas of math, science, and technology. With a master's degree in science education and a bachelor's in elementary education, others considered me a technology leader for usage in my classroom, as well as a teacher technology trainer. In 2008, Multiple Sclerosis (MS) ended my career.
